

Are you looking for additional energy-saving opportunities?

Look no further. Check out these programs.

Home Energy Audits & Assessments

- ▶ **Virtual Energy Audit.** See where you could be saving energy in your home – from the comfort of home. Complete an energy audit online, and get energy saving recommendations and products to install in your home, delivered right to your door.
- ▶ **Home Energy Assessment.** Learn where your home may be costing you money and comfort with this assessment, conducted by a qualified participating contractor. Plus, earn rebates for qualifying improvements.
- ▶ **Home Retrofit.** Discover the benefits of working with a qualified participating contractor for a whole home audit and receive rebates for installing measures that deliver substantial energy savings.
- ▶ **Income & Age Qualifying Home Improvements.** Qualify for home energy efficiency upgrades based on your age or income.

Energy Efficient Home Products

- ▶ **Smart Thermostats.** Get a rebate when you purchase a qualifying smart thermostat. Smart Thermostats help you monitor and control your temperature settings, which helps you save money and stay comfortable in your home.
- ▶ **Heat pump water heaters and variable speed pool pumps.** Get rebates for installing qualified ENERGY STAR® heat pump water heaters and variable speed pool pumps.
- ▶ **Appliance Recycling.** Receive a \$20 reward when you recycle your old, inefficient refrigerator or freezer.
- ▶ **Lighting Discounts and Appliance Rebates.** Save on ENERGY STAR® certified lighting and appliances.

Usage Conservation Programs

- ▶ **Smart Thermostat Rewards.** Use your smart thermostat to help Dominion Energy manage higher energy demand by allowing minor, short-term adjustments to your HVAC system via your Wi-Fi thermostat. Eligible participants receive a reward \$35 for the first year and \$10 each year thereafter.
- ▶ **WeatherSmartSM Program.** Uses your smart thermostat schedule, local weather data, and your unique thermostat data to learn how your house reacts to various weather conditions. Then your thermostat automatically makes customized adjustments for your home resulting in energy savings. Participants will also receive a \$10 annual rebate, plus a monthly report with additional recommendations to help you save even more energy.
- ▶ **Heat Pump Water Heater and Pool Pump Rewards.** Enroll your smart device and help Dominion Energy manage higher energy demand by allowing minor, short-term adjustments to your connected heat-pump water heater or variable speed pool pump.
